New York Stock Market

New York, May 23.—The stock market to-day awakened from its torpor of the early days of the week and became decidedly more animated, but at the expense of quoted values. A combination of liquidation and short selling influenced probably by unfavorable railroad earnings, caused a audden reversal from the steadiness of the opening. By noon practically every leading issue was selling considerably under yesterday's lowest prices. Pressure continued to centre around the coal shares, with evident unloading of such issues as Missouri Pacific, Rock Islands, Kanses City, Southern common and preferred, and Chicago and Alton, these receded from 2 to 4 points with concurrent weakness in all railroad properties. Such prominent industrials as United States Steel Amaignmated Copper and American Smelting felt the force of the early decline to the extent of a point. Before the after session had proceeded far the 18st manifested a tradency to make some recovery, but declines surrivened, and the better tone then gave way to an indefinite drift, which cantinued to the last half hour, when Union Pacific, Steel Canend a few other prominent stocks made full recovery to the accompaniment of an inert close.

Morey conditions here was inclined to a firmer position to-day and particularly in the long futures. There was a broader market for commercial paper with increasing purchases by New England institution.

Our tond market was heavy some of the active issues, and especially stock Island collateral fours showing weakters.

Total sales, par value, amounted to \$2.046,000. Panama 3's coupon declined 1-2
